# Frequently Asked Questions About HPIP's Insulation Coursework For Job Corps

**Question: How much does it cost to bring the HPIP Primary Insulation Coursework to my center?**

**Answer:** As of June 1, 2020 we will be offering scaled pricing for the Primary Coursework and a flat rate of \$99 per student for the Secondary Coursework.

**Scaled Primary Coursework Pricing Per Student:**

<20 students	\$150
21-50 students	\$125
51-100 students	\$99
101+ students	\$90

**Question: What are the requirements for Job Corps instructors to teach with this coursework?**

**Answer:** HPIP requires that any instructor that will be utilizing and training students with the coursework must take and pass the coursework themselves first. Six months after initial implementation of the coursework at your center, those instructors are required to attend a live hands-on insulation training workshop that HPIP hosts. We will work with your center on arranging travel and lodging accommodations.

**Question: How long does it take to complete the Primary Insulation Coursework?**

**Answer:** The Primary Insulation Coursework is rigorous in its content, but is flexible in how each center can implement it. Some centers work the content into a 4 week program, and others have adjusted their curriculum to fit an 8 week program.

**Question: How long does it take to complete the Secondary Insulation Coursework?**

**Answer:** The Secondary Insulation Coursework generally takes 2 weeks to complete depending on your center's classroom structure.

**Question: Does HPIP offer the insulation coursework in Spanish or any other languages?**

**Answer:** HPIP is working to develop our coursework in Spanish to eliminate the language barriers that many students and insulation installers face in this industry. We will be offering this in the future.

**Question: How do we use HPIP's insulation coursework?**

**Answer:** HPIP's Primary and Secondary Insulation Coursework are hosted in our online learning management system and completely web-based with the exception of some supplemental reading materials. Once your order is processed, our staff will work with your instructors and give a short tutorial on how to use the system and add students.

**Question: Do seats expire?**

**Answer:** No, seats do not expire. If you don't use all of the seats you purchased for this year, they will roll over to the next. If you ever need to pause your use of the coursework temporarily for any reason, those seats will be there when you decide to go live again.

**Question: Is there a minimum or maximum of seats that can be purchased?**

**Answer:** We prefer not to sell less than 20 seats of the Secondary Coursework at a time. With our price change effective on June 1, 2020 it will be more affordable for your center to purchase more than 20 seats of the Primary Coursework at a time. There is no maximum amount of seats that you can purchase at a time.
